May 22, 2007

Number 47

Toni Chociemski talked to the Lions about the Emory university Georgia campus Study. His is a study funded by the State of Georgia from funds from the tobacco company settlement. They need 140,000 volunteers from our State who have never been diagnosed with cancer to volunteer for the Program. These volunteers need to be between the ages of 25 to 74. They will be tested, evaluated and tracked to try to help determine root causes of cancer. Toni also informed the Lions that they would like to use our Lions Park Facility for a recruiting headquarters in this area.
